

VINIT VAIBHAV KUMAR

IT Service Desk Analyst | BCA – Artificial Intelligence & Machine Learning
+91-7763864835 | vinitvaibhav5253@gmail.com | linkedin.com/in/vinit-vaibhav-13b089344 | github.com/vinitvaibhav-5253

PROFESSIONAL SUMMARY

Results-driven BCA (Artificial Intelligence & Machine Learning) student at Galgotias University with proven hands-on experience in IT Service Desk operations, hardware and software troubleshooting, incident ticketing, SLA management, and remote desktop support (RDP). Proficient in Python, C++, Java, and JavaScript with practical knowledge of machine learning workflows using Scikit-learn and NLP techniques. Adept at root cause analysis, knowledge base documentation, and cross-functional communication in fast-paced IT environments. AWS Academy certified across Generative AI, Machine Learning Foundations, and NLP – 52 hours of verified training. Actively seeking an IT Service Desk Analyst role to deliver high-quality Tier-1 technical support and drive operational efficiency.

CORE COMPETENCIES

IT Service Desk Support • Incident Management & Ticketing • SLA Compliance • Hardware & Software Troubleshooting • Remote Desktop Support (RDP) • Root Cause Analysis • Knowledge Base Documentation • Windows OS Administration • Python Programming • Machine Learning • Natural Language Processing (NLP) • Data Analysis (EDA) • Version Control (Git) • Client Communication • Technical Documentation

TECHNICAL SKILLS

Languages: C, C++, Python, Java **Web:** HTML, CSS, JavaScript **Tools & Platforms:** VS Code, Google Colab, Git
IT Support: Windows OS, Remote Desktop (RDP), Hardware/Software Troubleshooting, Incident Ticketing, SLA Management **ML & Data:** Scikit-learn, TF-IDF, Pandas, Matplotlib, EDA

CERTIFICATIONS

- AWS Academy Graduate – Generative AI Foundations Training Badge | 12 hrs | May 2026 | [credly.com/badges/4e7339f7-a689-4e6f-a228-a1ca39d49fa0](https://www.credly.com/badges/4e7339f7-a689-4e6f-a228-a1ca39d49fa0)
- AWS Academy Graduate – Machine Learning Foundations Training Badge | 20 hrs | May 2026 | [credly.com/go/65ETmxm](https://www.credly.com/go/65ETmxm)
- AWS Academy Graduate – ML for Natural Language Processing Training Badge | 20 hrs | May 2026 | [credly.com/go/y3a03G1E](https://www.credly.com/go/y3a03G1E)
- C & C++ Programming Training – CSDT IT Solution, Patna | Dec 2022 – Feb 2023
- Continuously upskilling in AI, ML & IT Infrastructure via Coursera and NPTEL

EDUCATION

Bachelor of Computer Applications (BCA) – AI & ML | Galgotias University, Greater Noida 2023 – 2026
Specialisation: Artificial Intelligence & Machine Learning | No standing arrears – meets all IT industry eligibility criteria

Class XII – PCB | Paradise Children Academy, Kudra, Bihar 2022

Class X | D.A.V. Public School, Power Grid Pusauli 2020

KEY PROJECTS

Email Spam Detection System | Python | Scikit-learn | NLP | TF-IDF 2024

- Developed a binary classification model using Scikit-learn with TF-IDF vectorisation, achieving ~95% spam detection accuracy with precision, recall, and F1-score evaluation.
- Applied full NLP pipeline: tokenisation, stop-word removal, feature engineering; produced technical documentation replicating enterprise knowledge base standards.

Traffic Accident Analysis Dashboard | Python | Pandas | Matplotlib | EDA 2024

- Conducted exploratory data analysis on large-scale accident datasets, identifying high-risk patterns and automating reporting pipelines to reduce manual effort by 40%.
- Delivered a structured analytical report demonstrating professional technical documentation and data communication skills applicable to IT incident reporting.

OEMS – Online Examination Management System | HTML | CSS | JavaScript | PHP | MySQL 2023

- Developed a full-stack Online Examination Management System with secure login, dynamic question bank, auto-grading, and real-time result generation for students and administrators.

INTERNSHIP & PRACTICAL EXPERIENCE

IT & ML Self-Initiated Projects – Peer Technical Support | Galgotias University Labs 2023 – Present

- Delivered Tier-1 peer technical support: diagnosed and resolved software environment issues, IDE configuration errors, Python dependency conflicts, and OS-level incidents for cross-functional project teams.
- Practised full incident lifecycle management – triage, root cause analysis, resolution, and structured documentation – simulating enterprise-level Service Desk ticket management workflows.
- Maintained version-controlled codebases on GitHub with structured project logs, directly replicating Service Desk change management, knowledge base creation, and audit-trail documentation practices.

ACHIEVEMENTS & ACTIVITIES

- 52 hours of AWS Academy verified ML/AI training (2026) across Generative AI Foundations, Machine Learning Foundations, and NLP – demonstrating commitment to continuous cloud and AI upskilling.
- Consistent competitive coding participant; regular data structures and algorithms practice strengthening analytical problem-solving and debugging capabilities essential for IT support roles.
- Clean academic record with no standing arrears; available for pan-India relocation and flexible with rotational shift timings across any IT Service Desk environment.
